Our trade on Piques has been so large that we properly assume we are head-quarters for this most popular fabric. There is nothing extant in plain or figured, what we have. Our immense and choice stock of these is so well known that we seldom ad-

vertise them. There are some new arrivals, however, that are worthy of your early inspection. UNCLE SAM AND GREATER AMERICA

REPUBLICAN MASS MEETING.

The Republicans of Mason county will meet in Mass Convention at the Courthouse, Mayfield, Ky., June 12, 1890, at 2 p.m., to take a formal pose of opposition to the State Convention which meets in Lexington, Ky., July 1st, 1890, to nominate candidates for state offices. All Republicans are earnestly requested to be present at this meeting.

Clarence Matthews, Chairman.

W. D. Cochran, Secretary.

The necessity for a permanently increased internal revenue tax will be found in the steady falling off of foreign trade. We want a B.R.T. to use Tariff system the income is, says the Minneapolis Journal, proportioned to the imports. If we buy a large quantity of goods abroad, the revenue from the Tariff may be sufficient to support the Government. But the fact is that during the past few years the industrial development of the United States has been so great that we are buying less and less abroad. The proposed bill, and popular bill, will sell us a good and larger large quantities of our own manufactured products. Under such a condition of things, which is calculated to give full employment to American labor at good wages, our people can afford to pay the internal revenue taxes. It is manifestly better for the country to put its hand in its pocket and pay a small percentage of its income directly to the support of the Government than to pay for large quantities of foreign goods. The displacement of foreign wares by American wares in our own market is a condition which indicates a reorganization which has been brought about by judicious Protection.

Under the impulse and encouragement of this Protection American capital has been invested in American manufactures and energy to such an extent as to enable our manufacturers to command not only our own markets, but a considerable portion of the foreign markets as well. The shortage of \$170,000,000, estimated by Secretary Gaox, funds which are necessary for a permanent increase of our expenditures have already been shut off, and a steady reduction must ensue as the affairs of our newly acquired islands get into better shape. The time must soon come, if the war taxes are continued, when the National Income will exceed the National outgo, and the losses of the past year will be rapidly made up.

Mr. H. R. Glasscock and Miss Emma Carpenter will marry in Flemington tomorrow.

The Democrat Medal Decanter Contest takes place this evening at the Mayfield Christian Church.

The Secretary of War has written Governor Bradley to designate the name of a monument association, G. A. R. Post or municipality to which he desires one of the captured Spanish guns sent.

A Card of Thanks.

I wish to say that I feel under testing obligations for what Chamberlain's Rough Riders had done for our country. We have used it so many cases of our just friends and enemies, and in having given the most perfect satisfaction. We feel greatly indebted to the manufacturers of this remedy and wish them to please accept our hearty thanks. Respectfully, S. D. Dury, Des Moines, Iowa. For safety J. J. Wood & Son, Druggists.
